SYSTEM+ is a unique solution giving an opportunity to create the finished product adjusted to the individual needs. This solution gives a possibility to create an exhaust fan or a ventilation grille matching to a given interior. It is possible thanks to a wide range of decorative front panels so as the fan housings available in many equipment options. The products from the **SYSTEM+** range are offered in diameters Ø100 and Ø125 mm.

Easy assembly of panels with no tools required, helps to carry out changes resulting from the need to rearrange interior, as well as making products easier to clean.

The SYSTEM+ allows for application of a fan and ventilation grille, which will be presented equally in one and the same room.

PANELE \ FRONT PANEL

EASY CLIP

The front panels are the elements that crown the entire fanor a ventilation grille structure, combining the function of apractical cover and a decorative element in one. Our offer includes panels made of glass, metal or plastic. There are also-those which - thanks to t he use of a special groundwork - can be painted with any paint or filled with a suitable wall tile.
